Schoharie County Business Festival 2010

The Schoharie County Business Festival sponsored by the Schoharie County Chamber of Commerce was held on June 9, 2010 at the Best Western in Cobleskill, New York. It was the FMS Workforce Solutions Centers' pleasure to share information on what our organization has to offer and to make new business acquaintances. In addition, there were many productive and informative presentations; David McDonald, The Business Review presented "Learn how to build your network, grow your business and career with The Business Review." Peter Sweeter, Fenimore Asset Management/FAM Funds presented "Retirement Plans for Small Businesses and IRA's." Chuck Finin, Mesa Technical Associates, presented an informational seminar on the products that his company offers—"Back Up Battery Systems for Utilities and Telecommunications."

A special thank you from Your Business Services Representatives, Nancy Reccio and Nancy Liddle to all of the local businesses that shared this event with us. To find out more information about what services we offer please visit our website at:

What Training Incentives Are Available Locally?

Customized Training

Do your employees have up-to-date skills to compete in today's global market? Do they lack computer skills? Customized training can relate to the introduction of new technologies, new production or service procedures, an upgrade to a new job that requires additional skills, workplace literacy, or other appropriate purposes that will enable YOUR workforce to be more productive and effective in their jobs.

On-the-Job Training for New Workers

On-the-Job Training is designed to help cut some of the high costs of hiring and training NEW workers while providing a practical and realistic work experience. Employees meet your job standards because you train them on your equipment.

Both of these programs...

- May reimburse up to 50% of the training costs during the training period.
- May last from 4 to 26 weeks of training.
- May be applied to up to 25% of your workforce.

Call Your Business Services Representative today to find out more about specific eligibility requirements for these cost reimbursement programs. She will be happy to explain which program may be best for your company.
