

A special Thank You to Workforce Solutions for the funding that made it possible for our Insurance Agency to send several of our staff to the New York State Property & Casualty Insurance Course that is required to obtain their Property & Casualty Insurance License. Thanks to Nancy Reccio and Workforce Solutions 95% of our agency staff are now Licensed Insurance Professionals which gives them more opportunity to advance within our agency.

I also had the pleasure of working with Jennifer Swart with the Youth Program at Workforce Solutions and have had several youth working in our agency during the summer months which has helped us in our busy season and also gave me the opportunity to mentor the individuals and teach them work ethic. I highly recommend the Youth Program to other businesses!
